COVID-19 STATEMENT

Greystoke House has always put the safety of our Guests first. With regards to Covid-19; we will strive, always, to take all the appropriate measures to reduce the risks from Covid-19 for our guests and visitors to our Bed & Breakfast.

To do this, a Risk Assessment has been completed that both identifies the possible risks and then develops the controls needed to reduce the risk. The result of this Risk Assessment is that we have invested in various types of equipment and implemented several procedures into reducing the risk of infection and demonstrate to our Guests that we offer an environment that is safe.

THESE INCLUDE:

- Investment in sanitizing stations and equipment, PPE (personal protective equipment), and signage.
- Maintaining social distancing by reducing contact between staff and guests as much as is practical.
- Implementing procedures and protocols where social contact cannot be avoided by ensuring appropriate measures are introduced to reduce the risk of infection.
- Ensuring that cleaning and sanitising is carried out on a regular basis, to the highest of standards in all areas of the house.
- By ensuring adequate facilities and materials for effective hand sanitising are made available for staff and guest use in all public areas.
- By ensuring the latest up to date information on Covid-19 from the UK

Government is made readily available in the form of information posters around our B&B, regular correspondence with guests, and ensuring our website is kept up to date with the latest information and guidance.

- By ensuring that in our business, customer and staff safety will always take priority over profit.

We will regularly review our Policy and Procedures to ensure they are as effective as possible.

We are committed to delivering a clean and safe environment and have created a 10-step safety and hygiene protocol to ensure our home is as clean and safe as possible. New cleaning and disinfection procedures, including the use of steam cleaning machines, increased attention to cleaning in communal spaces, protective equipment, and updated training are included in the new steps.

These steps describe specific processes and measures that are designed to make you feel confident when you visit us.
